TO FLOWER LOVERS,
ALL OVER THE WORLD.

Dear Friends:-

Spring, 1914.

This new catalogue, our silent salesman, comes to you offering at manufacturers' and growers' prices, the stock of one of the largest plant-producing establishments in the United States--offering something for every garden, everything for some gardens--making it a book that should be consulted by every one interested in Roses, Shrubs, Bulbs or Seeds.

Years of experience in packing plants has resulted in methods enabling us to guarantee their safe arrival, and in the years of our business career our products have found their way into every state and territory and into many foreign countries. For 40 years we have pleased the flower lovers of America, and the business today in all its departments still remains the property of and is under the direct control of the founders and their sons.

Our guarantee is an asset with us and a safeguard to you, giving absolute security to mail order buyers. We promise you as fine stock as can be grown, a large assortment and good service, and we believe therefore, that this catalogue, which we hope will be found pleasing and helpful, is entitled to the consideration of all buyers.

With assurances that all orders and communications shall have our conscientious and careful attention, we so solicit a share of your garden wants for another year.

Faithfully yours,

The McGregor Bros. Company.

ments of Springfield. We are well acquainted with the officers of the Company, and regard them as men of executive ability, high business ideals and strict integrity. We feel warranted in saying that they can be relied upon to keep their guarantee of giving satisfaction, or returning any money sent them in pre-payment.

label, or to refund without question the amount paid therefor, but it is mutually understood and agreed between the purchaser and ourselves that our guarantee of genuineness shall not, in any case, make us liable for a greater sum than that originally paid for stock ordered. We cannot guarantee results in any way or entertain complaints that are not made promptly after receipt of goods.

SPECIAL BARGAIN

SALE EDITION

OF

Roses, Bedding Plants, Summer Flowering Bulbs, Etc.

THE PRICES THAT WE HAVE MADE IN THIS BOOK ARE SO LOW AND THIS CATALOGUE SO DIFFERENT FROM ANY OTHER EVER PUBLISHED THAT WE FEEL SURE IT WILL BE READ FROM COVER TO COVER

A New Kind of Catalogue The distribution

catalogue will open the greatest Special Bargain Sale in the history of our business and will offer some of the greatest bargains in Roses, Bedding Plants, etc., that have been presented this season. Most floral catalogues are very much alike. This one is entirely different. The flowers are illustrated in their natural colors and offered in collections which makes ordering extremely simple.

Why We Can Save You Money

All of our goods are grown in large quantities for wholesale purposes. Our retail prices are based on our large production, giving our retail customers an easily appreciated advantage. By adopting the plan, special offers and collections, we reduce our selling expense to a minimum and as our sales to you are by mail, execution of the orders are attended with comparatively little expense.

McGregor Quality This saving is put into better care of the plants, etc., maintenance of "McGregor Quality," and giving you lower prices than those for which you can buy corresponding quality from a retail dealer.

How-to Order It will not be necessary to write out the names of the plants given in the special offers or collections. Simply give the number of the "Special Offer" or "Collection." Be sure to enclose the correct amount, as that will facilitate the filling of your order. It is best to send an express money order or Postoffice order, but if not, you may send check. If you send coin, send it in a registered letter. We will be responsible for it in this way. Postage stamps will be accepted for fractional parts of a dollar or where post-office orders cannot be had, provided a two-cent stamp extra is sent with every remittance. None but stamps in perfect order accepted.

Order Early It makes it much easier to fill your orders promptly and to give you better plants if you order early, before the stock runs low.

If you do not want the plants at the time you order them, because it is too cold, or you are not ready for them, simply state when you want the goods shipped. We will set aside your plants and take care of them until you are ready for them. If nothing is said about holding them, we try to ship them the same or the next day after receipt of the order.

Our Guarantee These low prices are in no sense any indication that the goods are not high grade. They are exactly the same plants for which you pay a higher price when selected from regular floral catalogues. We guarantee all plants that we send out to be true to name, healthy, well rooted and in good growing condition when they leave our shipping room. Not a plant nor a collection can fail to give the greatest results if given reasonable care and attention. Most failures with plants, bulbs and seeds are due to soil conditions, unfavorable weather and other causes which we cannot control and against which we cannot make any guarantee. But if any plant by accident is not a good plant when sent out, we will replace it free of charge.

Springfield, Ohio, U. S. A. is the acknowledged headquarter in the United States for the shipping of plants by mail and express, and is the greatest Rose producing center in the world. It is centrally located geographically, with five express companies—American, Adams, United States, Wells, Fargo and Pacific, and has unequalled facilities for receiving and shipping orders and procuring the lowest rates to all parts of the country. This gives you the assurance of getting your order in the quickest possible time, and enables us to guarantee delivery at the minimum rate through one company, for where all these companies are not represented there must be an increase in express rates. Within twenty-four hours we can reach two-thirds of the population of the United States.

Plants by Mail All stock listed in our Catalogue, unless noted, is offered at prices marked, by mail, postpaid, and we deliver all such items free of all expense to any postoffice in the United States.

Springfield Gives Lowest Express

Rates Only where all the Express Companies are represented, as at Springfield, can the lowest Express rates be given.

Parcels Post Heretofore the limit of weight of a package of mailable plants, bulbs and seeds has been four pounds. The newly established system of Parcels Post simply gives the added privilege of transferring through the mails packages of mailable plants, bulbs, seeds, etc., of weight up to eleven pounds. Do not construe this to mean however, that the increased size of package allows carrying express size plants. It only permits of sending you larger orders of mailable plants.

Shall We Remove Soil from Roots and Ship Prepaid? Read these Conditions Carefully

Removing the soil, or ball of earth, from the roots of the plants places the shipping of plants on a mail order basis, and inasmuch as we pay postage to all points of the United States and its possessions, we are willing to prepay the express charges on orders amounting to \$3.00 or more when shipped in this way, except, however, on orders for such plants as Cycas, Palms, Ficus, Azaleas, Araucarias, Camellias, Rhododendrons, Banana Plants, large Lemons and other large decorative plants; Dahlias, Caladiums, Peonies, large Shrubs, Nursery Stock, or vegetable seeds in pints and quarts, and garden requisites. Such plants as these must be shipped without the root being disturbed if one must expect the best results from them. The prepay offer does apply, however, on such plants as Roses, Begonias, Chrysanthemums, Carnations, Cannas and ornamental Ferns, Geraniums, Fuchsias, Lillies, mailing size Shrubs, hardy Vines, some of the hardy Perennials and miscellaneous Bedding Plants. These plants can be shipped to the most far-away sections of our country with the soil removed, and transplanted safely.

5 GRAND COCHET ROSES

Crimson Maman Cochet

"As free-flowering as any Tea or Polyantha Rose."

This Rose has been named descriptively Crimson Maman Cochet, because of its vigor of growth, stiff stems, heavy foliage, freedom of bloom and its hardiness. It is as free-flowering as any Tea or Polyantha Rose, bearing its massive, large, full cup-formed flowers singly on long, stiff stems; the color is new, clear red-crimson velvet, brightening in the center; exquisitely fragrant. Price, strong one-year-old plants, 18 cents each, 3 for 48 cents, 12 for \$1.48, postpaid; two-year-old plants, 33 cents each, 12 for \$2.98.

Pink Maman Cochet

"Buds beautiful; flowers superb; perfectly hardy."

Such beauty and exquisite form as is possessed by this variety is well nigh marvelous. The buds are beautiful, large, full and firm, and elegantly pointed; as they expand they show great depth and richness, sometimes measuring two and one-half inches from base to tip. Flowers superb when open, extra large, perfectly double and of splendid substance. The color is clear, rich pink, changing to silvery-rose. Price, 13 cents each, 4 for 48 cents, 12 for 98 cents, postpaid; two-year-old plants, 28 cents each, 4 for 98 cents, 12 for \$2.48.

Color warm rose-crimson. Hardy everywhere. Price, strong one-year-old plants, 13 cents each, 4 for 48 cents, 12 for \$1.23, postpaid; two-year-old plants, 33 cents each, 12 for \$2.98.

5 GRAND HERMOSA ROSES

Popular Pink Hermosa

"Hardy as a Lilac; free-flowering as a Geranium."

Pink Hermosa is the best known in the entire Rose family and a universal favorite. Hardy as a Lilac-bush and as free-flowering as a Geranium; it combines everything most desirable in a Rose. The flower is cupped, finely formed and full, color a most pleasing shade of pink, soft but deep, very fragrant. Price 13 cents each, 3 for 38 cents, 12 for \$1.23, postpaid; two-year plants 28 cents each, 3 for 78 cents, 12 for \$2.73.

White Hermosa

"We counted on one plant 143 buds and flowers."

This is a lovely white Rose, a pure Tea, but a foreign seedling; the freest flowering white rose we have seen. For a pot plant it cannot be excelled as it possesses every good quality of a pot Rose. We counted on one plant 143 buds and flowers, and the plant was only nine months old. Try it. Price, 8 cents each, 3 for 23 cents, 12 for 88 cents; two-year plants, 23 cents each, 3 for 63 cents, 12 for \$2.48.

Yellow Hermosa

"No Rose like it for freedom of bloom."

No Rose like it for freedom of bloom. It is a fine grower and carries numbers of flowers on every shoot. A fine yellow Rose, large, not at all formal, but very attractive. Called the Yellow Hermosa from its free-flowering character. We do not know of any Rose that will give the satisfaction that this variety will and we heartily recommend it. Price, 13 cents each, 3 for 38 cents, 12 for \$1.23, postpaid; two-year plants, 28 cents each, 3 for 78 cents, 12 for \$2.73.

SPECIAL OFFER No. 4L71 One each of the five Hermosa Roses, 1-year plants, postpaid, for 58c, 3 collections for \$1.68; one each of the five Hermosa Roses, 2-year plants, for \$1.23, 3 collections for \$3.48.

Hermosa Collection

Hardy. Always in Flower.
The full collection (5 varieties) 1-yr. plants, postpaid 58c
The full collection (5 varieties) 2-yr. plants \$1.23

Red Hermosa

"Unmatched in its velvety richness."

The flowers of this variety are the richest red of any Rose in our vast collection; a single bud or blossom will catch the eye at a great distance so brilliant is the color. Indeed, it is unmatched in its velvety richness; could well be termed "The Velvet Rose." It is as free in blooming as Bon Silene. One of our customers in California writes that she is kept busy by people asking her what Rose this is. Price, 13 cents each, 3 for 38 cents, 12 for \$1.23, postpaid; large two-year-old plants, 28 cents each, 3 for 78 cents, 12 for \$2.73.

Crimson Hermosa

"The very best of all Roses for bedding."

This is, without doubt, the very best of all red Roses for bedding. It can be planted anywhere, being entirely hardy. The flowers are of large size and of a fiery scarlet, a color seldom seen in Roses. Indeed, a bed of this Rose produces a mass of red equal to a bed of Geraniums. None better. Try it. Price, 8 cents each, 3 for 23 cents, 12 for 88 cents; large two-year-old plants, 23 cents each, 3 for 63 cents, 12 for \$2.48.

McGregor's Tested Fancy Roses

In this collection we have grouped together 24 of the finest Garden Roses for summer blooming. They make up a collection of Hybrid Tea Roses, which class is rapidly taking the foremost rank, having been produced by crossing the tree flowering Tea Roses with other varieties of the June Flowering or Hybrid Perpetual Classes. This collection not only combines the free flowering habit of the Tea Rose with the rich and varied colors of the other classes, but also inherits comparative har-

diness. The collection shows wonderful results achieved by the most noted rose specialists of this country and Europe.

Not only does the collection represent all colors known in roses, but shows many beautiful shades and color combinations not found in the ordinary varieties. We believe the collection to be one of superior merit and especially adapted to our climatic conditions. Each and every variety a perfect gem in its particular color and form.

BEAUTIFUL DECORATIVE FERNS

THE BEST FOR HOME AND PORCH DECORATIONS

These beautiful plants for home decoration vie with the Rubber plants for first place in the esteem of flower lovers. They are finely cut and oddly shaped. Fronds have a graceful effect produced by few other plants and they do exceedingly well in the parlor and conservatory. The Nephrolepis family, of which the well-known Boston is a member, has furnished us many beautiful species of late years.

THE BEAUTIFUL OSTRICH PLUME FERN (Elegantissima Improved)

"The Ostrich Plume" Fern, *Elegantissima Improved*. The graceful pluminess and charm of the new *Nephrolepis*, its characteristic features of shape, size and growth, give it distinction and superior commercial value. *E. Improved* is of dwarf growth and wide upright, stocky shape. The fine cut fluffy fronds stand erect and have proved little liable to revert to the original Boston type. The pinnae sub-dividing make miniature fronds which are superimposed on the main fronds, looking as if two or even three were contained in one. Each frond or branch has a double row of perfect little fronds set at right angles to the mid-rib.

They are graceful beyond description, feathery, plumy; nothing describes them better than "Ostrich Plumes." We offer well established plants from 2-inch pots, 13 cents each, postpaid; from 3-inch pots, 23 cents each, postpaid; from 3½ pots, 33 cents each, postpaid; strong plants from 4-inch pots, 48 cents by express; specimen plants from 5-inch pots, 73 cents by express.

THE SPRINGFIELD FERN

A valuable Fern, especially for vases, baskets, and box work, of very erect growth, the fronds more stiff than the Boston, and similar to the *Piersomii* Fern. It is a vigorous growing variety, and we believe will prove very popular. Price, nice young plants, 13 cents each; strong plants, 33 and 48 cents.

The Boston Fern, 14c, 23c and 48c.

NEW PLUMED FERN

Elegantissima Compacta This is a sport from the *Piersomii* Fern; the plant is of much more compact habit, one-half as tall, but with all the fronds nearly twice as wide making it a much more desirable plant for all purposes. Price, nice young plants, 13 cents each; larger plants, 23 and 48 cents each, postpaid.

THE BOSTON FERN

(*Nephrolepis Exaltata Bostoniensis*.) This popular Fern has proved one of the best decorative plants of recent introduction. The fronds are much larger than the *Sword* Fern, and do not stand so stiff, but droop gracefully. Excellent for making large specimen plants, also for hanging baskets. Price, nice young plants, 14 cents each; larger plants, 23 and 48 cents.

The Newport Parlor Fern

(*Nephrolepis Scottii*.) It is a condensed form of the Boston Fern with characteristics not evident in the parent, an average plant in an 8-inch pot having 200 fronds. The fronds average about twenty inches in length and three inches in width at the widest point, being more finished than the parent. Price, nice young plants, 13 cents each; larger size, 23 and 48 cents.

Newport Parlor Fern, 13c, 23c and 48c.

The Beautiful Nephrolepis Whitmanii Fern

"The Ostrich Plume" Fern, *Nephrolepis Whitmanii*. The graceful pluminess and charm of the new *Nephrolepis*, its characteristic features of shape, size and growth, give it distinction and superior commercial value. The *Whitmanii* is of dwarf growth and wide upright, stocky shape. The fine cut fluffy fronds stand erect and have proved little liable to revert to the original Boston type. The pinnae subdividing make miniature fronds which are superimposed on the main fronds, looking as if two or even three were contained in one. Each frond or branch has a double row of perfect little fronds set at right angles to the mid-rib.

They are graceful beyond description, feathery, plumy; nothing describes them better than "Ostrich Plumes." We offer well established plants from 2-inch pots, 13 cents each, postpaid; from 3-inch pots, 23 cents each, postpaid; from 3½-inch pots, 33 cents each, postpaid; strong plants from 4-inch pots, 48 cents by express.

Nephrolepis Whitmanii Fern, 18c., 27c., 47c.

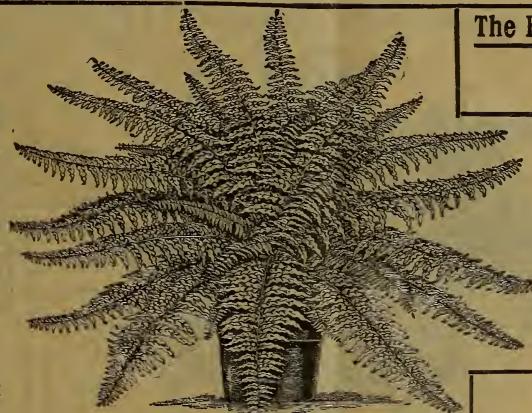

THE FISH TAIL FERN

(*Nephrolepis Davalliooides Furcans*)

This is a grand Fern, entirely distinct from any of the other varieties of *Nephrolepis*. Throughout the South, and especially at New Orleans, this Fern takes precedence over all others. The ends of each pinna are so formed as to resemble a fish tail, giving the fronds a crested appearance, very effective. It grows into the most shapely plant of any of the *Nephrolepis*. Grand for house culture. Nice young plants, 18 cents each.

The New Fern "Roosevelt"

Introduced as "The Greatest Fern of the Age"—In general characteristics it resembles the Boston Fern, but with two points of great excellence over that variety. First, it produces many more fronds, making it a bushier and handsomer plant; then the pinnae are undulated, giving it a pronounced wavy effect seen in no other Fern. It is highly recommended. Fine, young plants, 18 and 33 cents; stronger plants, 48c., postpaid; strong specimen plants, 72c. each, by express only.

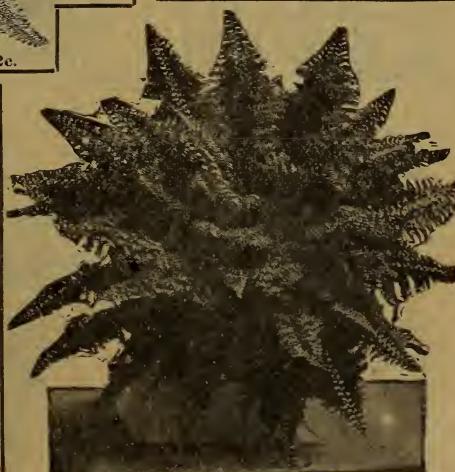

Roosevelt Fern, 18c., 33c., 48c. and 72c.

The Beautiful Plumed Scotti Fern

(*Nephrolepis Schozeli*). The ideal plumed Fern, holding the same position to all other plumed varieties that Scotti holds to the old Boston. It is a sport from Scotti, possessing all the merits of that most popular variety, but with the pinnae subdivided, giving it an airy, feathery appearance. Price, nicely shaped plants, 13 cents; larger sizes, 27 and 47 cents, postpaid.

McGregor Bros. Co.—Received Ferns today. I have dealt with every reputable Florist in the United States, but I have never received such splendid, large, thrifty plants packed in such excellent shape. Mrs. W. H. Townsend, Azusa, California.

Hardy Ferns

These graceful and universally popular plants are of easy culture and afford a wide range of possibilities. A shady nook, where the soil is moist and the drainage good, will prove an ideal location, especially if a liberal amount of leaf mold or woods earth is available; and better still if rocks and stumps may unite in breaking the monotony of the ground's surface. Under such conditions Ferns require very little attention and amply repay in satisfaction and genuine pleasure. There are many places more or less shut out from the sunlight that may be converted into veritable beauty spots by clumps of Ferns of various kinds and their intrinsic ornamental qualities are well worthy of our attention. Price, 24 cents each; 3 for 68 cents; 6 for \$1.32; \$2.47 per dozen.

Hardy Fern, 24c., 6 varieties for \$1.32 dozen, by express only.

McGregor's Guide to Floral Culture gives full directions for growing of Ferns. Free on request with \$1.98 order. [15]

Shaking Fern

(*Pteris Tremula*.)

The foliage of the *Pteris* varieties is large and very graceful. The slightest movement of the air shakes the leaves of the *Tremula*, which we recommend more than any other for house culture, etc. It grows readily and very fast. Keep the leaves from dust and sprinkle slightly every warm day. Price, 13 cents each, 3 for 38 cents, postpaid.

Crowfoot Fern

(*Pteris Wilsonii*.)

Dwarf, deep green foliage, leaves heavily crested. A fine addition. Price, 13c each, 3 for 38c, postpaid.

**SPIRAL LEAF
REX BEGONIA Countess Louise Erdody**

The leaf has a metallic luster, dark-silvery in the center; shading to coppery-rose toward the margin. The striking peculiarity which distinguishes it from all other Begonias consists in the fact that the two lobes at the base of the leaf do not grow side by side, but one of them winds in a spiral-like way until in a full grown leaf there are four of these twists high. Price, 24 cents each; 3 for 69 cents; 6 for \$1.24.

Large Leaved Rex or Painted Leaf Begonias

Rex Begonias are grown exclusively for the great beauty of their foliage, which is large and beautifully variegated a peculiar silvery-metallic gloss. They make excellent pot plants, and are also effective for budding in shady corners. We make a specialty of this marvelous family of plants. They require light soil compound of rich loam, loose woods earth and sharp sand. They like a moist, warm atmosphere, and should be kept shaded during the summer. Do not allow the sun to strike the leaves when wet, and do not overwater the plants.

Louise Closson, 19c

LOUISE CLOSSON

One of the richest and most beautiful of the Rex family. The coloring is simply magnificent, center of leaf deep bronze with broad band of silvery-rose, edged bronze, giving the whole a purplish tint. The oddest color of all the Rex. Price, 19 cents each; three for 49 cents.

KING OF REX

One of the most effective of its class, though the oldest variety. Of a beautiful metallic luster, center and edge a soft velvety green with a broad silver zone terminating at the point. The foliage of this Begonia, on well-grown specimens is so massive and the growth so majestic as to awe the beholder. Indeed, we doubt if we have a handsomer plant than this. It is of the very easiest culture. Anyone can succeed with it. Price, 19 cents each; three for 49 cents.

REX BEGONIA, LOUIS CHRETIEN

Louis Chretien made a decided sensation among Begonia growers a few years ago. The zone of rosy heliotrope is broad and very highly colored, the habit and freedom of growth exceptionally good, while the metallic luster is very bright. Begonia lovers looking for a first-class novelty to add to their collections will find this variety extra fine in every particular. Price, 24 cents each; 3 for 62 cents.

BEGONIA RUTH FINDLAY

One of the most distinct and striking of all Rex Begonias, and one of the easiest to grow. The plant is of bushy habit, and the leaves are of fair size—most of the leaf being a silver color spotted and streaked with dark green on the edges. This variety bears the metallic luster of other Begonias, and, at the same time, shows the coral-red effect when the light shines through the leaves. Price, 14 cents each; 3 for 39 cents.

MIKADO

One of the freest growing Rex Begonias, throwing out great clusters of leaves which are exquisitely beautiful. They are edged with a narrow band of dull soft pink, especially prominent in the older leaves, which also have a pinkish cast. The body of the leaf is of a metallic-green with a dark center. The difference in this Begonia lies in the striking pinkish cast of the leaf. Price, 19c each; three for 49c, postpaid.

EMPEROR WILLIAM

Produces large, round leaves of rather silvery-metallic-green, shaded pink. New and distinct. Price, 24 cents each; three for 62 cents, postpaid.

McGregor's New and Striking Fancy Roses

Notwithstanding the great number of varieties of roses already introduced, hybridization has, during the last few years, been more carefully studied than ever before and the results enable us to offer a collection of fancy roses which will stand without equal. The average garden enthusiast nurses the delusion that roses run pretty much alike in color while the fact is that it is not difficult

to make up a most attractive collection and from which the common rose color would be entirely excluded. It is the color of a rose that makes its appeal universal; even fragrance is placed to one side and the form is of secondary importance. Lovers of roses should class and place their orders early in the season, for the charm of the new and distinct rose is to have it while it is new.

Begonia McBethii, 25c

THIS PLANT is of more than ordinary value; it is a rapid, healthy grower, very profuse bloomer, with beautiful foliage, and always presents an attractive appearance during its growing season. The surface of the leaves shows various shades of dark and light green of remarkable richness, and presents a transparent depth of texture of the most exquisite beauty. The under side of the leaves is veined bright red, the veins being distinctly prominent and showy. The flower stems tall and stately, towering six to ten inches above the foliage; produce clusters of flowers and buds of a beautiful pink color by the hundred on a single plant during an ordinary growing season. You will unhesitatingly say it is Queen of all Begonias. This is a tuberous-rooted, herbaceous, hardy perennial Begonia, losing its tops in the fall. When bedded out, the roots remain in the soil and start new growth in the spring, just as do the Peony and Perennial Phlox. The plants like a rich, porous soil and partial shade and will bloom throughout the summer coming into perfection during August, September and October. Price, 19 cents each; three for 49 cents; 12 for \$1.74.

Begonia Rubella

A very ornamental Indian species, belonging to the Ricinifolia section. The leaves are irregular and blotched red, on a pallid ground; rib is banded with a purplish-brown, under surface red. THE BEST OF OUR

SUMMER FLOWERING BULBS

McGregor's Mammoth Lily of the Valley

Increases rapidly, grand for permanent planting.

The sweetest and loveliest spring blooming plant, producing delightfully fragrant blooms. Will thrive in any common soil and do well in shady places where many other plants fail. The plants are too often starved and neglected and relegated to some poor, out-of-the-way corner; but this popular and fragrant subject, like most other plants, repays for being well treated; and if the bed is given a liberal top-dressing of well-decayed manure, along in February or March, it will show the effect by increased size, number and vigor of the flowers. We offer strong plants especially suited for outdoor planting, which should be done as early in the season as possible. Price, 4c each, 6 for 24c, 49c per dozen, \$3.49 per hundred.

CHRYSANTHEMUMS

Chrysanthemums are of Japanese and Chinese origin. Through the enterprise of American growers, who have given them time and devotion, they have, as if by magic, so developed as to give them the unquestioned title of "Queen of Autumn Flowers." For massive blooms, grandeur of color, ease of culture and certainty of flower, either in the open ground or in pots, there are no plants that will surpass them, and but few their equal. The endeavor of nearly all growers has been, in late years, to introduce varieties which will produce the largest and finest blooms for exhibition purposes, and it is of these varieties that our list is made up. Every sort we offer, if well grown, should prove a prize winner.

Notice

It may be well to state here that young Palms do not resemble the illustrations given, as they do not show their character leaves until the second and third year, so that when you order small Palms and see long, narrow leaves instead of the character leaves, as shown in the illustration, do not think that the wrong kind has been sent you.

PLANTS THAT WILL BLOOM AND BLOOM ALL SUMMER

The colored plate of Fuchsias, Petunias, Begonias and Phlox offers a collection of constant blooming plants, rich and gorgeous, yet soft in coloring; varieties of marvelous beauty for the yard and garden. The 20 sorts offered make some of the choicest collections that will be of-

fered this season. They represent wonderful improvements in size, color and beauty of flowers. All are prolific bloomers; vigorous in habit of growth; and, in fact, so easy to grow that all persons should succeed with them.

**McGregor's
Constant Blooming
HIBISCUS**

Hibiscus are of great merit in that they bloom constantly and they have added value of being especially adapted for house plants, blooming just as well indoors as out. Hibiscus permit of being trimmed into large bushy plants or standards and after the first year, make fine specimens which can be kept and used in this manner for several seasons. They can be stored in a protected place where such plants as Hydrangeas, Oleanders, etc., are wintered or can be kept growing through the winter. The collection we offer gives a grand variety of color and makes up a collection of the best varieties offered.

**McGregor's
Double Fringed
PETUNIAS**

For outdoor decoration or for house culture there are few plants which are as effective as the Petunia. They begin to flower early and continue to be a mass of bloom throughout the summer season and up until they are killed by the frost. They are easily cultivated, simply requiring a good soil and sunny location. After devoting a great deal of time on Petunias, we have succeeded in getting the finest strain or set that we have ever offered. Unsurpassed in brilliancy of colors and the size of the flowers. They include all the brightest shades of pink, purple, rose, white, crimson, etc. They have been carefully selected and the most of them are beautifully fringed.

**McGregor's
Gorgeous Tuberous
BEGONIAS**

This charming class of Begonias is perhaps the handsomest of all summer-flowering tuberous-rooted plants, and are deserving of much greater popularity. Either as bedding plants or grown in pots, their varied colorings are unique, vivid and gorgeous. Flowers of the largest tubers are of immense size and great substance. From the first opening flower until frost arrives, they are a brilliant setting for any garden. The bulbs we offer are grown by an eminent European bulb specialist, and are all first size blooming tubers, true to colors and markings, and we guarantee that our customers will be fully satisfied with the results from plantings.

**McGregor's
Mammoth Hardy
PHLOX**

In the collection below, of selected Phlox, we offer five plants which we believe give as great value in a collection as anything offered in our catalog. Among the hardy plants there is no class excelling Phlox. They succeed in almost any soil and location, giving wonderful flowers through a long season, and will continue to flower through many years with no attention. They produce wonderful effects when planted in masses of a single color or as illustrated on our colored plate. No perennial is more worthy of culture or will produce more satisfactory results. The following collection we highly recommend.

H. C. L., Williamsport, Ill., says: "I certainly can recommend your flowers. Everything I have purchased from you has grown wonderfully. Your Hibiscus are exceptionally beautiful. It would be impossible for me to say too much in regard to them."

Mr. Henry Sayles of Abilene, Texas, says: "The Petunias are full of bloom at the present time, October 30, and for this climate are to the forefront as beautiful bloomers. Are in perpetual bloom from early summer till winter."

Mrs. W. H. Townsend of Azusa, Cal., says: "I received my box of Begonias today. I have dealt with every reputable florist in the United States, but I have never received such splendid, large thrifty plants packed in such excellent shape."

Mrs. Geo. E. Price of Myerstown, Pa., says: "All the plants were in fine condition when I received them. I now have a large flower garden, containing a great many different kinds of flowers. The Phlox are doing fine, and very much admired."

McGregor's Fragrant Garden Carnations

When the people throughout the country were vainly seeking for an appropriate flower, acceptable to all, as our National Emblem, nature opportunely came to their assistance by presenting the improved Carnation—the product of American soil—which seems especially created for that purpose, uniting the red and white flower with foliage of metallic hue.

While it is generally conceded that the rose ranks first for producing flowers for cutting, the carnation is gaining in popularity for its profusion of bloom, easy culture, and for the exquisite fragrance of its flowers.

The last few years have seen an entirely new carnation, forming one of the most beautiful and desirable flowers we have, flowering freely during the summer and fall in the garden, and with proper attention and care, giving an abundance of flowers indoors in the winter. We take pride in offering the following collection:

Victory A large flowering variety with a striking scarlet bloom. Very attractive and distinct, and with all the good points of the outdoor and indoor growing carnations. 12c

Sunbeam Flowers, light clear yellow of strong foliage. Color does not look white when under artificial light as with some yellows. 12c

Enchantress A very pleasing shade of light pink. When fully developed flowers measure over 4 inches in diameter. Very attractive and of fine form. Growth is ideal. Develop magnificent blooms under ordinary culture. 12c

Bonfire An early, free and continuous blooming variety of strong and robust growth. Produces strong stems holding flowers of fine form and good substance. Color, brilliant deep scarlet. Very fragrant. 12c

Painted Lady The flowers are full and double, and have a delightful clove fragrance. The color is pure white ground, beautifully striped with bright pink and scarlet—reminding one of the beautiful tints seen in Azaleas and Rhododendrons. 16c

Dorothy Gordon Color, a beautiful shade of carmine-pink. Flowers, 2½ to 3 inches in diameter, borne on stems 18 inches long. Always healthy and free from disease. Blooms early and continuously. 12c

BARGAIN COLLECTIONS

The choice of varieties in these sets must be left entirely to us, as we positively cannot afford, at the collection price, to permit customers to name the plants. But all who prefer their own selection of varieties can make them at the prices of single plants, which in all cases accompany the descriptions. These collections are subject to the following conditions: That persons ordering are only to name the number or numbers, designating the collection or collections wanted, as it takes too much valuable time to read long letters giving detailed lists of plants in each collection desired. FRUIT TREES NURSERY DEPARTMENT CHOICE FRUITS

SPECIAL NOTICE—As our Nursery is a separate and distinct department from our Greenhouses, it is necessary that all nursery stock orders be shipped direct from the Nursery. When offered by mail, postage is paid by us; if by freight, charges are to be paid by the purchaser, but larger stock will be sent. Prices on Nursery Stock are placed very low and we cannot allow premiums to be selected on orders for small Fruits or Fruit Trees. The trees offered are young and thrifty and will make a very rapid growth and bear quickly. When fruit trees or shrubs are received before they can be planted they may be safely kept a reasonable length of time by having the roots packed in boxes of moist soil and stored in a cool cellar or shed. It is important to order fruit early, that they may be planted out before the foliage starts.

Mc GREGOR BROS. CO.

McGregor's
Selected Flower Seeds

We have used the greatest care in obtaining our Flower Seed, and those we offer you are absolutely fresh, being grown under our personal supervision or imported from the best foreign seed growers. Failure in getting satisfactory results from seed planted may be attributed to the manner in which the seed is sown rather than the lack of germinating power in seed, and seedsmen are unjustly censured when the fault lies in the cultivator and not in the seed.

Sowing of Seeds—Spade the soil in the seed bed to a good depth, work it over and over with the spade in order to mash the small clods. Sow the seed in drills or broadcast, according to the kinds, covering carefully and lightly, there being more danger in covering too much than not enough. Never allow the seed to remain in dry soil.

For seeds that require an early start, to secure blooms before frost, sow in shallow wooden boxes, in good garden soil. Cover seeds very lightly, keeping the box in a sunny window, covering the box with a pane of glass until the seeds begin to sprout, but never allow the soil to become too dry.

Transplanting of Seedlings—Do not allow the little plants started in the boxes to grow too tall before transplanting. Care should be taken in watering seedlings well after planting and to protect from the sun for a few days with light paper.

Flowers from seed are usually known as annuals, biennials and perennials.

Annuals bloom and ripen seed the first year, and then perish.

Biennials do not generally flower the first year, and are in perfection only one year.

Perennials continue to flower several years in succession. Many of them bloom the first year if sown early.
